Dear Imron,
Thank you very much for your comment.
All the metadata have been provided by Scopus /Elsevier in their last update sent to SCImago, including the Coverage's period data. The SJR for 2019 was released on June 2020, 11. We suggest you consult the Scopus database directly to see the current index status as SJR is a static image of Scopus, which is changing every day.
For further information, please contact Scopus support:

Dear Manhal,
thank you for contacting us.

Sorry to tell you that SCImago Journal & Country Rank is not a journal. SJR is a portal with scientometric indicators of journals indexed in Elsevier/Scopus. For the publication of an article you must submit your manuscript to a journal.

SJ&CR is an Open Access tool. We suggest you use the SJ&CR search options to check if a journal is indexed or not. We make public all the information we have sent us Scopus and if there are journals indexed in Scopus that do not appear in the SJ&CR is because we have not received the data from Elsevier/Scopus.
