Elpina Elpina:

We have reached a decision regarding your submission to Jurnal Minfo Polgan, "Legal Challenges in Managing Intellectual Property Rights in Business Information Systems"

Our decision is: Revisions Required

---

**REVIEWER**

Revised Introduction Notes:

1. Incorporating Recent Research: Integrate recent research findings or advancements in the field to bolster the relevance and currency of the discussion on Intellectual Property Rights (IPR) within business information systems.
2. Clarify the Importance of IPR Management: Explicitly state the critical role of effective IPR management in navigating the complexities of modern business operations and ensuring sustained competitiveness.
3. Highlight Legal Challenges and Ambiguities: Emphasize the challenges and ambiguities inherent in implementing legal frameworks like the Electronic Information and Transactions Law (ITE Law) concerning IPR, and the necessity for specific legal handling.
4. Address Technological Challenges: Discuss the technological challenges faced in managing IPR within business information systems, particularly focusing on issues like data security and trademark disputes, and emphasize the need for stringent protection and effective strategies.
5. Emphasize Holistic Approach: Stress the importance of a holistic approach that considers legal, ethical, and business practice aspects in managing IPR within business information systems, ensuring compliance and protection for all stakeholders.
6. Enhance Clarity and Coherence: Ensure clarity and coherence in the structure and flow of ideas throughout the introduction to facilitate better understanding for readers.

By incorporating these revisions, the introduction can effectively set the stage for a comprehensive discussion on managing Intellectual Property Rights within the context of business information systems, addressing both legal and technological challenges while emphasizing the importance of a holistic approach to ensure optimal protection for all involved parties.

Recommendation: Revisions Required
